## A Culture of Innovation

### WHAT?

We are a OCDSB team dedicated to providing schools and the community with examples of experiential learning occurring in our classrooms-by kids for kids! We want to grow imagination, inspire and foster innovation in OCDSB classrooms.

We are building a learning community; whether you're a student, teacher, administrator, parent, or community partner or someone who is interested in innovation, we invite you to join our OCDSBXL community. In addition to the resources, ideas, and research results available at [www.OCDSBXL.ca](http://www.OCDSBXL.ca), you can contribute to our blog; send in video/audio clips; contribute as a guest lecturer; find out about EVENTS and networking opportunities; and encourage friends, and colleagues to contribute to the innovation conversation.

### WHY?

We are promoting connections within creative and innovative learning classrooms to support Exit Outcomes which are outlined in the OCDSB 2019-2023 Strategic Plan. This work is anchored in empirical educational research exploring student/teacher innovation and active learning.

### HOW?

The OCDSBXL website will showcase student run contests, video blogs, upcoming EVENTS, highlight guest speakers and promote community partnerships. Together we can foster a culture of innovation for student learning and achievement. Be apart of TEAM OCDSBXL!
